ABSTRACT

This publication presents an overview and summary of the results of a survey of teacher education students. The survey is one component of a larger project to increase the number of minority teachers. The questionnaire was designed to probe the academic and socioeconomic backgrounds of teacher education students as well as their attitudes and perceptions toward teaching. Data were analyzed by race/ethnicity in order to determine the differences among students from various groups. The summary is organized in three sections relative to students' precollege, college, and teacher education expectations. The bulk of the document (25 pages) is devoted to the tabulation of selected question results; the 63-item questionnaire is appended. (JD)

ACKNOVLEDGMENTS

AACTE'S Board of Directors and membership appreciate the contribution of the Metropolitan Life Foundation in the development of this and other efforts to increase the pool of minority teachers.

This report on the AACTE/Metropolitan Life Survey of Teacher Education Students represents the efforts of a number of individuals. The entire Metropolitan Life project was well advised by a committee of experienced professionals namely, Richard Arends (University of Maryland), Dorothy Prince Barnett (North Carolina A&T University), Ricardo Garcia (Eastern Montana College), Antione Garibaldi (Xavier University), Ana Maria Schuhmann (Kean College-New Jersey), Nancy Zimpher (Ohio State University), and last but not least Chontell Richardson, a 1989 graduate of Howard University's School of Education.

The data collection and analysis were conducted by AACTE's Research and Information Services staff members Mary Dilworth, Ebo Otuya, Jr., Dagmar Kauffman, Mark S. Lewis and Cathleen Siegel. Finally, the Association is particularly indebted to the staff and students of the participating schools, colleges and departments of education that responded to the request for data in a timely and professional manner.

AACTE/ METROPOLITAN LIFE SURVEY OF TRACHER EDUCATION STUDENTS

(Fall 1988)

The following is an overview of the results of a survey of teacher education students conducted by the American Association of Colleges for Teacher Education (AACTE). The survey is one component of a larger project sponsored by the Metropolitan Life Foundation to increase the number of minority teachers. The survey results were used in the development of the 1989 AACTE publication, Recruiting Minority Teachers: A Practical Guide.

In Fall 1988, AACTE's Research and Information Services mailed 622 student surveys to deans/chairs of education at 42 member institutions. The institutions were randomly sampled and stratified by region, and institutional type. Surveys were received from 472 third and fourth year teacher education students (White, 58.92, Black, 28.82, Hispanic, 7.82, Asian/Pacific Islander, 3.8, and American Indian/Alaskan Native, 0.6).

The questionnaire (see Appendix A) was designed to probe the academic and socioeconomic backgrounds of teacher education students as well as their attitudes and perceptions towards teaching. Data were analyzed by race/ethnicity i.e., White, Black, Hispanic, Asian/Pacific Islander, American Indian/Alaskan Native, in order to determine differences between and among students from various groups. Only questions yielding results of <0.05 are addressed in this summary.

This summary is organized in three sections relative to students' precollege, college and teacher education experiences.

SUMMARY OF BACKGROUND DATA

Approximately 95 percent of White teacher education students surveyed grew up in predominantly White neighborhoods, but more than half of Black (61.7%) and Asian (64.7%) students surveyed lived in neighborhoods made up mostly of minorities. (Question 16).

Whites (63.6%) and Blacks (91.6%) attended high schools where the largest ethnic presence was Black. For Hispanics (77.1%) the largest ethnic presence was Hispanic, and for Asian/Pacific Islanders (64.7%), it was Asian/Pacific Islander. This may have had an impact on an individual's decision to attend a particular postsecondary institution, as the ethnic/racial composition of an institution was rated important to very important for 64.5 percent of Blacks, 34.3 percent of Hispanics, and 40 percent of Asian/Pacific Islanders. In turn, 83.5 percent of Whites and 52.9 percent of Asian/Pacific Islanders go to mostly White institutions, 74.3 percent of Hispanics go to institutions that are at least half minority, and 83.5 percent of Blacks go to schools that are made up mostly of minorities. (Questions 18, 29, 52).

English is a second language for the majority of Hispanics (51.4%) and Asian/Pacific Islanders (61.1%), but only 5.6 percent of Hispanics are bilingual majors, and almost no Asian/Pacific Islanders major in biligual education. Most education students are majoring, and intend to teach, in either elementary or secondary education, with approximately one-fifth of Blacks (21.5%) and one-fourth of Asian/Pacific Islanders (27.8%) choosing to pursue Early Childhood Education. (Questions 3, 11).

More than half (55.5%) of the mothers of Hispanic teacher education students did not complete high school, and no Black, Hispanic or Asian/Pacific Islander respondents indicated that their mothers have doctorates. Although only 2.2 percent of the fathers of Blacks, and 2.8 percent of the fathers of Hispanics achieved the level of doctorate in their education, Blacks (37.3%) and Hispanics (48.6%) nope to get their doctorate more than Whites (13.4%) and Asian/Pacific Islanders (15.8%). (Questions 1, 12).

SUMMARY OF ATTITUDES/PERSPECTIVES ON COLLEGE LIFE

The greatest proportion of Asian/Pacific Islanders surveyed (41.27) attended college more than 2000 miles from their home, whereas 88.5 percent of Hispanics and 48.5 percent of Blacks surveyed go to school within 50 miles of their home. (Question 3).

Although approximately 72 percent of the Asian/Pacific Islander, 70 percent of the White, and 63 percent of the Hispanic teacher education students surveyed attended the institution of their first choice, only about

45 percent of the Blacks surveyed attended their first choice. (Question 27).

Approximately 55 percent of the teacher education students surveyed attended another 2 or 4 year institution before entering their present SCDE. Hispanics (37.8%) and Asian/Pacific Islanders (33.3%) attended 2-year colleges or universities more often than Blacks (19.1%) and Whites (24.0%). Whites (41.7%) and Asian/Pacific Islanders (38.9%) attended 4-year colleges or universities more often than Blacks (31.9%) and Hispanics (29.7%). (Question 35).

Nearly 10 percent of the Hispanic teacher education students secure 30 percent of their finances for education, room, board, tuition, and fees from a part time job. Approximately 10 percent of Whites, 8 percent of Blacks, and 10 percent of Hispanics, get over 51 percent of their financial assistance from a part time job. (Question 42).

Approximately 22 percent of the Black teacher education students surveyed depend on scholarships to secure in excess of 75 percent of their financial assistance: more than any other group. Almost 18 percent of the Blacks surveyed depend on scholarships to cover 95-100 percent of their education, room, board, tuition and fees. Of the students surveyed who depend on grants to secure any of their finances, Black students more so than others (14.3%) rely on grants for over 50 percent of their financial assistance.

It appears that Whites and Blacks have the most dive sified financial aid packages. With the exception of the category of "part time job", Hispanics and Asian/Pacific Islanders seem to be getting most of their aid from a single source. (Question 42).

Appoximately 6.2 percent of Black respondents have guaranteed student loans that cover more than 80 percent of their costs. A higher percentage of Asian/Pacific Islanders (31.3) have teacher education specific financial aid than others. (12.1% Whites, 23.2% Blacks, and 18.8% Hispanics). (Question 42, 43).

Fewer Asian/Pacific Islander teacher education students (62.5%) feel that their institution is sensitive to minority concerns than Hispanics (85.7%), Blacks (86.6%), or Whites (88.9%). (Question 36).

A higher percentage of Blacks (22.8%) are members of a fraternity or sorority, than any other racial/ethnic group surveyed. Blacks are also more likely to be members of a professional society than any other group (36%) (29.7% of Hispanics, 21.6% of Whites, and 16.7% of Asian/Pacific Islanders). (Question 37).

Approximately 70 percent of Whites spend most to all of their free time with students of the same racial/ethnic background. Correspondingly, over 50 percent of Blacks spend their free time with Blacks, and approximately 47

percent of Hispanics spend most to all of their free time with Hispanics. However, about 55 percent of Asian Pacific/Islanders spend only some of their time with Asian/Pacific Islanders. The highest percentage of students who spend no time with members of their own racial/ethnic background is Asian/Pacific Islanders (16.72). (Question 40).

Although more Blacks and Hispanics rate themselves in the top 10 percent of teacher education students in their "ability to work as a team" (47.8% and 37.8% respectively) than Whites (30.0%) and Asian/Pacific Islanders (16.7%), only 9.6 percent of Blacks and 5.4 percent of Hispanics play on a sports team. Over 18 percent of Whites, and approximately 16 percent of Asian/Pacific Islanders play on a team. (Questions 19, 37).

SUMMARY OF ATTITUDES/PERSPECTIVES ON TEACHER EDUCATION PROGRAM AND TEACHING

In preparation for a career in teaching, Whites (84.2%) found education professors more helpful than Blacks (69.9%), Asian/Pacific Islanders (77.8%), and Hispanics (78.4%). Whites (54.3%) also found their elementary or secondary teachers more helpful than Blacks (35.3%), Asian/Pacific Islanders (33.3%), and Hispanics (43.2%). (Question 46).

Whites (92.2%) and Asian/Pacific Islanders (52.9%) are in education programs where the racial composition is mostly White, whereas Blacks (71.4%) go to schools composed mainly of minorities, and 45.7 percent of Hispanics are in programs that are half minorities/half Whites, and 28.6 percent are in programs that are mostly minorities. (Question 52).

Approximately 12 percent of the White and Asian/Pacific Islander teacher education students surveyed said that they did not know if they could "identify solutions to problems that might arise as the result of cultural diversity", yet almost all Whites and Asian/Pacific Islanders said that they felt that they had been prepared to work with "persons from a different cultural background than [their] own." In response to the same questions, 89.4 percent of the Black and 97.2 percent of the Hispanic teacher education students surveyed saw themselves as "somewhat able" to "very able" to identify "solutions to problems" arising from cultural diversity, and approximately 94 percent of the Black and almost 98 percent of the Hispanic students surveyed felt that they had been prepared to work with "persons from a different cultural background." (Questions 55, 56).

Higher percentages of Black, Hispanic and Asian/Pacific Islander than. White teacher education students surveyed believe that low salaries for teachers, discipline problems in the schools, exhaustion, frustration at being unable to achieve one's ideals as a teacher, and the low standing of teaching as a profession are deterring minority students from pursuing careers as teachers. (Question 60).

When asked about the desirability of teaching different types of children, the White students indicated a preference for nonemotionally disturbed, White, high-income, Lural or suburban, English speaking children;

the Black students prefer nonemotionally disturbed, English-speaking children; and Hispanic students prefer nonemotionally disturbed, non-English-speaking children. (Question 57).

Although most of the students surveyed saw standardized testing as a necessary rite of passage, higher percentages of the Black (68.9%), Hispanic (56.7%), and Asian/Pacific Islander students (50%), than the White students (36.2%) think that current test instruments discriminate against minorities. (Questions 61, 62).

TABULATION OF SELECTED QUESTIONS RESULTS

BACKGROUND DATA

Q2: "What is the highest degree level you eventually expect to attain?"

	Bachelor's	Master's	Doctorate
White	16.7	69.9	13.4

The American Association of Colleges for Teacher Education

TEACHER EDUCATION STUDENT SURVEY

This survey is designed to gather information about teacher education students, i.e. their backgrounds, attitudes, and perceptions about the teaching profession, their teacher education program and college/university in general.

For the purposes of this survey, minority students have been defined as Black, Hispanic, Asian/Pacific Islander, and American Indian/Alaskan Native. In completing this survey, we would like you to choose one ethnic/racial group that describes you best.

You should be able to complete this questionnaire in 30 minutes or less. Your answers will be kept confidential and reported only in aggregate form. We ask you to be as accurate as possible in answering these questions and thank you for your assistance with this important research project.

When required, please check ($\sqrt{}$) to indicate your response.

BACKGROUND DATA

1. Are you a	
full-time student	()
part-time student	()
2. What is the highest de	egree level you evantually expect to attain?
Bachelor's () Master's () Doctorate ()	

3. What is your academic major?		
Early Childhood Education	()
Elementary Education	()
Secondary Education	()
Special Education	()
Bilingual Education	()
Vocational Education	()
Other (please specify)	()
4. Do you also have a liberal art Yes () No () If <u>no</u> , please continue with		
5. If <u>yes</u> , please specify:		
6. Your current overall GPA is:A ()		

()

()

7. Are you a

junior ()
senior in a 4-year program ()
senior in a 5-year program ()
post-baccalaureate student ()

8. Are you

White ()
Black ()
Hispanic ()
Asian/Pacific Islander ()
American Indian/Alaskan Native ()

9. Gender

Male () Female () 10. How old will you be on December 31, 1988?

16 or younger	()
17	()
18	()
19	()
20	()
21	()

Preparation for a career	()		
Obtain a good education	()		
Learning more about things I am interested in	()		
Parental pressure	()		
Couldn't decide what else to do	()		
None	()		
Other (please specify)	()		

24. In your search for a col	llege/university to attend did you rely on any of isted below for information?
(Please check <u>all</u> that	apply.)
brochures	()
college catalog	()
magazine ads	()
radio/television	()
presentations from	
campus recruiters	()
campus visits	()
information from friends/relatives	()
high school counselor	()
25. How many colleges/unive	ersities did you apply %o?
1 ()	
2-3 ()	
4-6 ()	
6 or more ()	
	·
26. How many acceptances di	id you receive?
1 ()	

()

()

2-3

6 or more

27. Was this institution your first choice:	?
Yes () No ()	
If <u>yes</u> , please continue with question # 2	29.
28. If <u>no</u> , wh, wasn't this institution your	first choice?
I was not accepted by the institution I wanted to attend	()
The college of my first choice did not offer me adequate financial aid	()
Other (please specify)	()

29. How important were the following factors in influencing your decision to attend this particular institution. (Please check <u>one</u> for each item.)

	very important	important	not very important	unimportant
reasonable cost	()	()	()	()
academic reputation of institution	()	()	()	()
size of campus population	()	()	()	()
ethnic/racial composition of institution	()	()	()	()
availability of teacher education program	()	()	()	()
overall appearance of campus	()	()	()	()

closeness to home	()	()	()	()
availability of financial aid	()	()	()	()
personal/academic counseling	()	()	()	()
tutoring programs	()	()	()	()
accessibility of faculty	()	()	()	()
career guidance office	()	()	()	()
availability of helpful and responsive education faculty	()	()	()	()
minority counselor	()	()	()	()
•			• •	
housing service	()	()	()	()
recommendations by friends/relatives	()	()	()	()

30. Would you recommend thi	s teacher education program to a friend?
Yes () No () If <u>no</u> , please continue wi	th question # 32.
31. If <u>yes</u> , please state rea	asons.
32. If <u>no</u> , please state reas	sons.
	institution from your parents' home? ()
	()
51-100 miles	()
101-500 miles	()
501-1000 miles	()
1001-2000 miles	()
more than 2000 miles	()

34. Before you entered this institut	on had you attended other institutions?
Yes () No () If <u>no</u> , please continue with question	ın # 36.
35. If yes, what type(s) of instituti (Please check <u>all</u> that apply.)	on(s) did you attend?
two-year community college	()
four-year college/university	()
<pre>vocational/technical/trade or business school</pre>	()
Other (please specify)	()
36. Is your college administration se Yes () No ()	nsitive to minority concerns?
37. Do you hold memberships in any car listed below? (Please check <u>all</u> that apply.)	πpus clubs or organizations
The same applied	
fraternity/sorority	()
professional organization	()
collegiate/intramural sports team	()
honor societies	()
None	()
Other (please specify)	()

38.	What	is your current living	arrangement a	at this	institution?
	What	would you prefer?			

	current	prefer
racially integrated on-campus housing	()	()
racially segregated on-campus housing	()	()
racially integrated off-campus housing	()	()
racially segregated off-campus housing	()	()
home with parents	()	()
Other(please specify)	()	()

39.	The	racial	composition	of	the	student	body	at	your	institution	is:
-----	-----	--------	-------------	----	-----	---------	------	----	------	-------------	-----

	Whites than minorities	(١
	minorities/half Whites	Ì	١
more	minorities than Whites	(١

40. How much of your free time do you spend with students of a different racial/ethnic background? (Please check one.)

of my own racial/ethnic background	()
I spend <u>most</u> of my free time with students of my own racial/ethnic background	()
I spend <u>some</u> of my free time with students of my own racial/ethnic background.	()
I do <u>not</u> spend <u>any</u> of my free time with students of my own racial/ethnic background.	()

41. During the last year, how many hours did you spend during a typical week on the following activities?

(Please check one for each.)

	None	1-5 5-10 hrs. hrs.	10-15 hrs.	15-20 hrs.	more than 20 hrs.
socializing w/friends	()	() ()	()	()	()
talking w/teachers outside of class	()	() ()	()	()	()
exercising/sports	()	() ()	()	()	()
working	()	() ()	()	()	()
student clubs/groups	()	() ()	()	()	()
hobbies	()	() ()	()	()	()
partying	()	() ()	()	()	()
watching TV	()	() ()	()	()	()
